The following is an examiner's statement of reasons for allowance:

In view of the statement in the examiner's answer, "Furthermore, it would have been obvious to use the prior art SEMICOAT 52302P polymeric epoxy underfill material as the polymeric and/or epoxy underfill material of Ameen because, as disclosed by the prior art, it would provide exceptional moisture resistance to prevent delamination. Also, it would have been obvious to use the prior art SEMICOAT 122X polymeric epoxy fillet material as the polymeric and/or epoxy fillet material of Ameen because, as disclosed by the prior art, it would reinforce crack resistance," the Board concludes, "Merely because certain materials were well known does not, per se, make it obvious to employ those materials in the specific manner claimed unless something in the prior art, or in the knowledge of the skilled artisan, would have suggested the specific use of those materials in the manner claimed. In our view, the examiner has pointed to no such suggestion," therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
